

H.A.N.D Helping Animals in Need

Helping animals in Need (H.A.N.D.) began because several animal lovers in the Granbury, TX area have been rescuing animals for years – fostering, adopting, transporting, and raising money. No matter how hard we worked, there were ALWAYS too many unwanted and unneeded animals.

The only REAL solution is to SPAY & NEUTER animals to stop using killing as the birth control “solution.” We formed our non-profit organization targeting **funding** for spay and neuter surgeries to help end overpopulation, abuse, and neglect.

If you need financial help with spaying or neutering your pet, please complete & return an application. You will find our application on our “Application” page of our website.
